

## DHL for Shopify Installation Guide

1. Login to your Shopify account
2. Apps > Visit Shopify App Store > Search in the taskbar for DHL or use our [link](#)

The screenshot shows the Shopify App Store interface. At the top, there's a navigation bar with 'SUPPORT', 'HELP CENTER', 'FORUMS', 'THEMES', 'APPS', 'EXPERTS', and a 'FREE TRIAL' button. Below this is the 'App Store' header with the text 'Powerful new features, services and plugins for your Shopify store' and a user profile 'Dhl Ecommerce (log out)'. A search bar and filters for 'Category: All', 'Price: All', 'Sort by: Popular', and 'Collections' are visible. The main content area shows the 'DHL' app card, developed by 'Vilango GmbH', with a 4-star rating and 8 reviews. To the right of the card is a 'Get' button and a 'Price' section indicating the app is 'Free'. Below the price section, there's a 'Requirements' section listing 'Google Maps API Key' (FREE) and 'DHL Paket Account' (FREE). A list of features is shown on the left: 'Easy integration of DHL delivery services in your shop frontend', 'Increase exposure and reach of your webshop', and 'Satisfied and returning customers'.

3. Get > Install App
4. Once successfully downloaded, you'll be taken to the configuration screen for the app.

The screenshot shows the Shopify Admin configuration screen for the DHL app. The top navigation bar includes the Shopify logo, a search bar, and the user profile 'DHL eCom Admin' with 'DHL eCom' below it. The left sidebar shows navigation options: Home, Orders, Products, Customers, Analytics, Discounts, Apps, SALES CHANNELS (Online Store), and Settings. The main content area is titled 'DHL' and contains three configuration cards. The first card, 'Location search', is marked as 'Not available in your country' and includes a note: 'By enabling this app, a small snippet will be automatically added to the card.liquid file.' The second card, 'DHL Shipping from Germany and Austria (Paket)', is also marked as 'Not available in your country' and includes the note: 'Integration for sending packages with the DHL Paket service.' The third card, 'DHL Shipping from other countries (eCommerce)', is marked as 'synced' and has a toggle switch turned on. It includes the note: 'Integration for sending packages with the DHL eCommerce service from countries where this service is available.' A link 'Click here' is provided for help with configuration.

Configuration instructions can be found in the accompanying documentation.
